Message from the President

As South Florida residents, we are all aware of the damage that a hurricane can do, please don't underestimate the power of a storm. Gardens Home Management is here for you during hurricane season to give you the peace-of-mind you deserve and take care of all of your hurricane needs. All you have to do is ask.

We will be here around the clock before, during and after the storm to assure you that your home is being well taken care of. We started preparing for hurricane season months ago and we'll be here to prepare your home to weather the storm.

Gardens Home Management Initial Hurricane Preparations

Garden's Initial Preparations as Hurricane Season begins...

With June 1st only weeks away we are gearing up for the dreaded Hurricane Season. All of our licensed contractors are on standby and are aware of our commitment to you and your home.

Gardens Home Management can help you get your home ready for the dreaded storm. The instant a Hurricane Watch is announced, we will inspect your home inside and out to secure all furniture that may become airborne in high winds, close all hurricane shutters, and take all necessary steps to defend your home from the effects of a hurricane to its fullest capacity. **

All contractors, staff and technology will be in place to weather the storm. We will be sending email broadcasts as soon as possible to keep you updated. Further, in the event that our email system is down, you will be able to reach us utilizing the Work Order Request form on our Web site, www.homecarepro.com.

Our pledge to you is to be ready on June 1st and responsible and alert for the entire season.

All HomeWatch clients will receive a post storm inspection and report as soon as possible after the storm has passed.

**If you have requested our assistance during a hurricane.

**Gardens Home Management Services
Hurricane Preparation Agreement**

**THIS AGREEMENT DOES NOT INCLUDE INSTALLATION OF PANEL TYPE
HURRICANE SHUTTERS**

It is the time of year in South Florida when all homeowners must think seriously about being prepared for the upcoming hurricane season. I would like to review with you the procedures and time lines that we follow, in order to secure our customers' property. If you would like us to perform these procedures at your home, **WE MUST HAVE YOUR SIGNED AGREEMENT PRIOR TO JUNE 1, 2009**, in order for us to prepare and organize our teams efficiently.

There is a \$75.00 non-refundable fee for all HomeWatch customers, which will be billed to your Gardens Home Management Account upon receipt of this signed Hurricane Preparation Agreement.

The fee ensures that Gardens Home Management in the event of a hurricane will secure your home. **There is a \$125 non refundable fee for all non HomeWatch customers, which will be billed to your Gardens Home Management account upon receipt of the hurricane preparation agreement.**

We will begin our hurricane preparations when the National Weather Institute issues a "Hurricane Watch" for the Palm Beach County area. We would not be able to secure all homes under our care if we wait until a "Hurricane Warning" is posted.

Gardens Home Management Services will perform the following when a "Hurricane Watch" is issued:

- ◆ Inspect grounds for items that could become airborne by high winds and store in the garage or home. Examples of items to be stored are patio furniture, statuary, barbecue grills, planters, pool items, doormats, etc.
- ◆ Where appropriate, large plants will be placed against an outside sheltered wall.
- ◆ Any furniture and/or plants brought into the home will be placed on plastic tarps to protect floors.
 - A fee of \$48 per man hour will be charged to your Gardens Home Management Account to secure your property.
 - We will close **accordion shutters or roll down type shutters only**. \$48.00 per man, per **hour will be charged**.
 - Initial here if you request this service_____. Shutter keys located_____.
 - **If you sign up for this service, the accordion shutters must be lubricated prior to hurricane season. Our handyman will lubricate the accordion shutters as soon as we receive this signed "Hurricane Preparation Agreement", which will be billed at \$48.00 per man, per hour.**

After the storm has passed and we are no longer in danger, Gardens Home Management will take the plants back outside. All other furniture and decorative items will remain in the garage and/or home, unless we are instructed by you, the homeowner. This will be billed at our standard charge of \$48.00 per man, per hour.

We strongly encourage you to secure your home prior to the hurricane season. If you do, you would "NOT" need a Hurricane Preparation Agreement. All HomeWatch clients will receive a post storm inspection and report as soon as possible after the storm has passed.

_____ **YES, I WOULD LIKE TO SIGN UP FOR THE HURRICANE PREPARATION AGREEMENT.**

_____ **NO, I DO NOT WANT TO SIGN UP FOR THE HURRICANE PREPARATION AGREEMENT.**

**Please sign the form and return it to our office by FAX to (561) 627-3659 or mail to:
8895 N. Military Drive Suite 102D Palm Beach Gardens.**

**The sooner we receive your agreement, the sooner we can get you scheduled.
Please send this completed form no later than Monday, June 15, 2009.**

Disaster Preparedness and Recovery

The best way to address disaster recovery is to better address preparedness – be prepared to recover. Although there are a number of organizations supporting the distribution of food, water, and ice, the importance of stocking your own supplies is imperative. Start now, and the additional costs of purchasing shelf-staple food, batteries, and bottled water, will not seem nearly as costly.

Identify if your home is in an evacuation zone, and have an evacuation plan. This plan should include letting family know where you will be.

If you choose not to evacuate, secure your home. If you do not have shutters, get them. My Safe Florida Home has several mitigation programs to help defer costs if you are eligible, and live in a building with four or fewer units in the building.

If you have certain medical problems, you may want to register with the Special Care Program. This program allows people who are pre-registered, to be sheltered in a facility that provides auxiliary power and health care staff. If you are on electrical life supports, require refrigeration for insulin, are bedridden and require custodial care, are too immobile or have a chronic stable illness, you should register today. Space at this shelter is limited and prioritized by need, but you must be registered.

For further information on this program, call 561-712-6400 and ask for the Special Needs Coordinator.

Alternatives to applying for this program would be to:

1. Make arrangements with your oxygen vendor for an adequate supply of portable oxygen cylinders in the event you lose power.
2. Speak with your physician to see if you can buy insulin that does not require refrigeration.

Most importantly, prepare your safe room – a bathroom or interior closet – and stock your supplies.

Hurricane Preparedness Week during 2009 will be held May 24th through May 30th.

Hurricane Shutters

Gardens Home Management is now able to install shutters at your home but only will be able to handle a limited number of homes. We are also able to paint your shutters so they can be installed in June and abide by the laws of your community. If you would like to receive more information on this service or receive a quote for this service please contact our office at 561-625-5700.

Hurricane Preparedness Week

History teaches that a lack of hurricane awareness and preparation are common threads among all major hurricane disasters. By knowing your vulnerability and what actions you should take, you can reduce the effects of a hurricane disaster.

Hurricane Preparedness Week during 2009 will be held May 24th through May 30th.

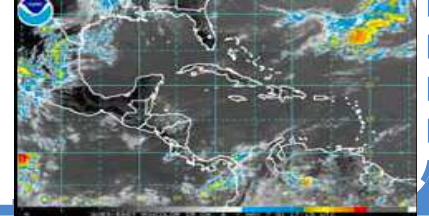

The goal of this Hurricane Preparedness Web site is to inform the public about the hurricane hazards and provide knowledge which can be used to take **ACTION**.

This information can be used to save lives at work, home, while on the road, or on the water. The first and most important thing anyone should do when facing a hurricane threat is to use common sense.

Please visit the Web site at:

Providing Communication, Before, During and After the Storm

The two most important factors of effective home management are information and communication. As part of our commitment to you and your home, you will receive automatic emails updating you on the status of your home and also pictures of your home. Our team of qualified professionals will keep you updated on all procedures and action taken.

Not only will we send you update emails, you can also feel free to email us with any questions. Even if the electricity goes out, we will still have Internet access and be at your service with our laptop batteries fully charged and wireless cards installed in the event that the network goes down. Our staff is able to effectively **communicate** with you, keeping you apprised of all ongoing projects and improvements, as well as any areas of concern.

COMMUNICATION...

- “Mass Communication” - allows us to instantly contact as many or as few individuals, at one time via e-mail.
- Residents can instantly contact Gardens Home Management service coordinators through our Web site via the Work Order Request form.
- The Web site is updated several times a day after a storm providing information to residents and families who are out of town.

TOP 10 REASONS TO SAFEGUARD YOUR HOME AGAINST HURRICANES

1. Increases your home value. Building features that increase your home's hurricane resistance also increase its market value.
2. Reduces the likelihood that you will need to evacuate (unless ordered to do so by the authorities). Homes built or can withstand winds of up to 130 mph, a Category 3 storm.
3. Improves your overall hurricane recovery time.
4. Reduces the amount and extent of damage to your home from wind storms.
5. Reduces your out-of-pocket expenses after a storm.
6. Reduces the likelihood of an insurance claim.
7. Prevents injury to your family from wind-borne debris.
8. Can lower your insurance premium. By law, all licensed insurance companies must offer discounts on premiums for hurricane-strengthening features.
9. Helps prevent damage to neighboring homes.
10. Ensures your home meets statewide building codes for hurricane-resistance

Gardens Home Management Mission Statement

Gardens Home Management exists to give you the peace-of-mind you deserve. We have committed our energies to instilling trust in our customers, vendors, and employees alike by demonstrating uncompromising honesty, quality workmanship and a commitment to excellence in everything that we do. As part of our fundamental mission, we pledge to simplify the lives of our customers through our understanding of their desire for comfort, control, convenience and connection. We pride ourselves in providing the best possible customer service through our unique, custom-tailored home management packages that will help to preserve and protect your home.
